Nuclear Information and Resource Service  
Public Citizen's Critical Mass Energy and Environment Program

October 28, 2004

Anna Bradford  
TWFN 7J-8  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001  
nrcprep@nrc.gov

Dear Ms. Bradford

Nuclear Information and Resource Service (NIRS) and Public Citizen's Critical Mass Energy and Environment Program respectfully request <<DEIScommentextension102804.doc>> an extension of the public comment period on the Draft Environmental Impact Statement (DEIS) for the proposed Louisiana Energy Service uranium enrichment facility (NUREG-1790), which currently is set to expire on November 6, 2004.

As you know, the NRC has closed its ADAMS document system to the public for an indefinite period. Thus, it is virtually impossible for anyone who has not already obtained a copy of NUREG-1790 to comment on this document. Moreover, supporting documents that may be relevant to NUREG-1790 are not available either. Ending the public comment period during a time when the relevant documents are not available to the public would make a mockery of the entire concept of public participation.

Thus, we request that the NRC extend the public comment period on NUREG-1790 until 30 days following publication of a notice in the Federal Register that NUREG-1790 and all other documents related to the Louisiana Energy Services license application (Docket No. 70-3103-ML) are again available for public access.

Sincerely,

Michael Mariotte  
Executive Director  
NIRS
